## Al Jaber Group

Al Jaber Group (AJG) is a privately owned multi-faceted group of companies, based in Abu Dhabi. AJG provides its professional services in the sectors of Construction, Heavy Lifting & Logistics, Industrial and Trading.

The strength of the Group is derived from controlled growth and diversification, demonstrating outstanding capabilities through utilizing varied divisions and resources within the Group to support and complement each other.

The Group's strategy involves the continuous quest for new opportunities in new markets, in addition to enhancing its large portfolio with new products and technical innovations to maintain its market leadership.

With a workforce in excess of 40,000 employees, the Group is geared to meet the constantly changing demands of the market by investing in the latest engineering and information technologies.

## Al Jaber Leasing Services LLC

Al Jaber Leasing Services LLC (ALES) is a major company of Al Jaber Group (AJC). Officially launched in 2009, ALES provides all logistics and transportation solutions to the construction, oil & gas and industrial sectors in the UAE and gulf region. ALES logistics management incorporates equipment, machineries & vehicles for hire, sales, repair and maintenance services through reliable technology backed up by professional staff. ALES owns and operates more than 7,000 units of equipment ranging from light vehicles to sophisticated construction and transportation equipment. ALES also manages around 14,000 units belonging to Al Jaber Group.

ALES is structured to meet the ever changing and demanding market conditions through delivering high quality services with the help of a multi-skilled workforce of over 6,000 trained and experienced employees, supported by workshop facilities spanning more than 250,000 square meter within Al Jaber Group yard in Mussafah. The company owns modern workshops and maintenance facilities and is fully accredited by industry recognized certification bodies like ISO 9001:2008, 14001:2004 and OHSAS 18001:2007.

ALES' priorities continue to focus on the health, safety, and well-being of the employees and customers by continuously identifying new initiatives, training requirements and implementing best practices. Our quest for utilizing latest technologies and advanced systems and processes ensure that our services and deliverables exceed customers' expectations.

This comprehensive range of equipment and technical knowledge positions ALES as the ideal rental partner for construction companies in the UAE and the region.

## Vision & Mission

### Vision

To be the leader in earth moving equipment & machinery fleet management, and first choice leasing company for both logistics and maintenance in the UAE & GCC

### Mission

Provide a wide range of equipment, machinery & vehicles with quality services and competitive prices

## Quality

ALES' fleet of machinery is sourced from the world's leading manufacturers; it is maintained and serviced to the highest industry standards.

ALES takes pride in utilizing the highest standards of technology and quality in its workshops and sites, ensuring the delivery of unmatched services to all clients.

ALES is a market leader through continuous improvements and initiatives that monitor and measure customer satisfaction as per international standards.

ALES maintains high quality standards through:

- Planning
- Monitored execution
- Regular inspections
- Continuous improvement

ALES provides market leading products, superior services, unrivalled maintenance and support 24 hours a day 7 days a week both locally and regionally.

## Health, Safety & Environment

Our activities operate in accordance to UAE rules and regulations; our health, safety, and environmental measures in running our operations exceed industry standards.

Our fleet is tested, maintained and regularly inspected.

ALES Employees are continuously trained and qualified with most accredited certification. We carry out safety induction sessions and weekly "tool box talks" regularly.

Control of Substances Hazardous to Health (COSHH) training is provided to all employees handling hazardous substances.

We realize our responsibilities towards the environment through implemented procedures that rectify environmental risks

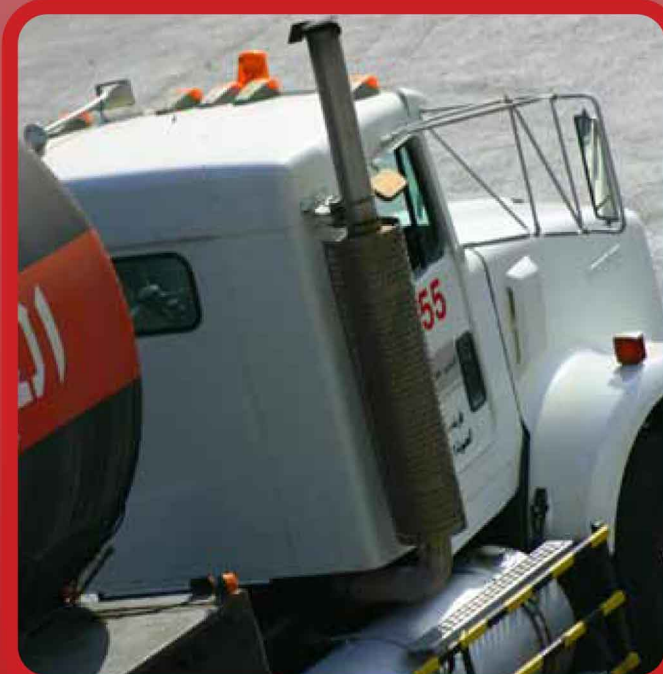

## Products & Services

### Plant Hire

ALES offers a comprehensive range of plant equipment to the construction, oil & gas and other market sectors. We are continually investing in new equipment, so our rental fleet is kept in excellent and reliable conditions.

We provide customized service/leasing packages for our clients supported with lean supply chain management practices, coupled with a solid comprehension of our clients' needs for flexibility and 24 hours customer services.

Our plant fleet includes mobile cranes, shovels, excavators, skid steers, dumpers, non operated plant items and small tools, generators, welding equipment, etc.

## Transport & Heavy Vehicles

Our heavy vehicles fleet of tipper trucks, trailers, water tankers, bulk tankers, fuel tankers, flat and low bed trailers provides solutions for all clients' haulage and transport needs.

ALES prides itself in setting the market standards through providing well maintained, safe and reliable vehicles to execute clients' tasks smoothly without interruptions.

### Concrete, Asphalt, Aggregates

ALES operates various batch type mix plants and crushers for the production of construction materials at competitive rates with excellent quality products.

## Workshops

### Maintenance, repair and refurbishment:

ALES provides repairs, maintenance & servicing of plants, vehicles and equipment through its fully equipped workshops to ensure the safety and efficiency of its products.

ALES' qualified and experienced technicians are trained to service and repair all types of machinery with the highest international standards and in accordance to manufacturer's requirements.

ALES workshops includes:

- Heavy equipment workshop
- Vehicles workshop
- Power plants workshop
- Industrial workshops
- Support workshops: Paint shop, service station, tyres station, etc.
